Under this head I may cite an anecdote of John Wesley, which, while it illustrates the character of this good man, teaches a sound practical lesson on the subject now in hand In the course of a voyage to America, Mr Wesley heard Gen. Oglethorpe, with whom he sailed, making a great noise in the cabin, upon which he stepped in to know the cause The General immediately addressed him, say

sng:
"Mr. Wesley, you must excuse me. I have met with a provocation too great for man to bear. You know the only wine I drink is Cyprus, as it agrees with me best of any; I therefore provided myself with several dozens of it, and this villain (his servant, who was present, almost dead with fear,) has drunk up the whole of it. But I will be revenged on him. I have ordered him to be tied hand and foot, and to be carried to the man-of-war which sails with us. The rascal should have taken care how he used me so, for I never forgive."

"Then, sir," said Mr. Wesley, looking calmly at him, "I hope you never sin." unded at the reproof threw the keys to the servant, and bade him to do better in future.

Here then is the point. If we would never forgive we must never sin. The very proneness to sin which we find in ourselves, should be a powerful incentive to the cultivation of the spirit of forgiveness.

"MOBY DICK" CAPTURED—The New Bedford (Mass.,) Standard relates the fol-lowing: In 1851, we published an account of the whaleship Ann Alexander, Capt. Deblois, of this port, being attacked and stove by a sperm whale. The whale was coming at the rate of 15 miles an hour, and the ship going about 5, at the time of the collision. The whale came with full force against the ship's bows, and stove in several feet square, almost instantly sinking the vessel, and barely giving those on board an opportunity to escape. The Honolulu Friend, of May 6, states that about five months subsequent to the catastrophe, the same whale was taken by the Rebecca Sims, of this port. Two harpoons were dis-covered in him marked "Ann Alexander." The whale's head was seriously injured and contained pieces of the ship's timbers. He had lost his wildness and ferocity, being very much diseased; but upon being taken, yielded seventy or eighty barrels of oil.

"Every body can understand what a re of the Nebraska-Kansas act means; but be-fore a new Congress can be organized, both of those territories, with the flood of emigrants now pouring into them, will be beyond its now pouring into them, will be beyond its reach—both will have a population of sufficient numbers to settle the question of slave-ry for themselves. But who on God's earth can explain what a "judicious rohibitory liquor law" means? We have enquired of a number of the strictest members of the "cold water army" for a solution, and have not been the first tried and true Democrates whom was such tried and true Democrates and the first tried and true Democrates and tried and true Democrates and tried and tried and true Democrates are tried and tried and true Democrates and tried and t number of the strictest members of the "cold water army" for a solution, and have not been able to find two who agree in their views. We have enquired of a number of old hard cider whice and then cider whigs, and they appear to be equally confounded; but who look upon it as a "goodough Morgan until after election." came within gun-shot of it was shrewd old fellow, who said it was some thing like Van Buren's "judicious Tariff"—which was ridiculed in the worst terms by the whigs, and laughed at by the democrats For our part, we were completely dumbfoun-ded about this plank in the new platform, until the following item in one of the organs of the coalition party in this city shed a little light upon the subject:
'George Williams, of Homer's Indepen

George Williams, of Homer's Indepen-dence Hall, has our thanks for a huge pitcher of pine apple sherry cobbler as cold as ice could make it.'

That's the idea of a "ju-di-ci-ous prohibi tory liquor law." It is one which will ena-ble the politicians of the new school to blow hot and cold with the same breath. It is relic of the hard cider era, refined into "pine apple sherry," and rendered more palatable by the introduction of a little "ice." A "judi-ci-ous prohibitory law" is not then design to prevent the abolition-whig gentry from indulging in such beverages as "pine apple sher-ry" champagne, Burgundy, Oporto and Ma-deira wine "cobblers as cold as ice can make them." But it is intended to prohibit the poor working men from using "apple-jack" in the same manner. It is intended only to punish and disgrace poor Irishmen, who occasion-ally indulge in "whisky cobblers;" or the ally indulge in poor Germans, who ence in a while quaff lager beer "cobblers." Yes, that's the principal, if not the Maine plank, in this new mongreltemperance, anti-Nebraska and know-nothing platform, of which John A. Hendricks was the chief architect."

It may be of comparatively little moment to wealthy citizens whether there be a college in Indiana at all, and what its character may be. They have the means of sendin their children to Universities in other State or in Europe. It has been estimated that, even with the number of colleges now in our State, upwards of one hundred young men, sons of our own citizens, are now pur-suing their collegiate studies without its limwrong in Mr. Robinson?

This resolution was the Convention. is on the 24th of May, sho posed by Billy Grose, Billy Baker, Walte March and Charly Test. These gentlemen with the exception of Mr. March, were com mitted in favor of the Mongrel ticket, nomi nated on the 13th inst., ar nd had no business in a Democratic Convention than my other Whigs or Abolitionists. The reso lution was amended so as to read that all who would abide the decision of the Convention and support the nominee, should have a right to take part in the proceedings of the

A motion was then made for the appoint ment, by the President, of a committee to consist of one from each county. This motion was also opposed by the factionists, and an amendment moved so as to have the com mittee appointed by the several countie The original motion prevailed, and the Pre-ident appointed Ezekiel Caldwell, James Elder, A. Pigman, Dr. Hamilton, Joseph S. Buckles and Capt. John Neff, said committee.

Mr. Neff declined serving.

Judge Test read a letter from Hon. O. P. Morton, stating his position to be in favor of the repeal of the Nebraska bill, or the restoration of the Missouri Compromise. It was evident to the factionists that the position of Mr. Morton was in opposition to the sentiment of the Convention, and that the mass of the Democrats there assembled were Nebraska men. Grose withdrew, as he stated he was authorized to do, the name of Morton

After dinner the Committee on resolutions reported through Mr. Elder, their Chairman. The 1st resolution re-affirms the adherence and devotion of the Democrats of this District to the time-honored principles of the Democratic party. The second endorses the principles of the Nebraska and Kansas law. The third favors the passage of the Home stead bill—4th endorses the National admin-istration—5th endorses Gov. Wright's administration—and 6th approves the nominations made on the 24th of May. The resolutions were uvanimously adopted, except the second against which three or four voted.

A motion was made that Gen. Joseph S. Buckles, of Delaware County, be nomin by acclamation as the Democratic candidate for Congress, which was unanimously carried. A general call being made for Mr. Buckles, he came forward and addressed the Convention in an eloquent manner. He took strong ground in favor of the popular sovereignty principle of the Nebraska bill, and fully eu-dorsed the platform of the State Convention dorsed the platform of the State Convention on that question. His speech was well received, and made an excellent impression. In Gen. B. the Democracy have a most worthy candidate. He is a gentleman of talent, a good speaker, and popular wherever he is known. He is much the superior of Mr. Hollenger.

After the nomination was made and Gen. B. was speaking, Mr. Othniel Beeson ed that the anti-Nebraska Democrats would retire to the milroad depot for the purpose of consulting what course they should pursue. Some eight or ten faction left, followed by nearly all the whigs and free soilers. Their absence but very slightly di-minished the crowd—they could scarcely be missed, the house still being well filled. Those who left were Billy Baker, Othniel Beeson, Charley Test, Walter March, Richard Job John Neff, Jo. Holman and two or three o ers. This little squad of factionists, surr ed by twenty or thirty whigh and abolition

ists, organized and nominated Joseph Holman ir candidate. The nominee is sufficient evidence that the thing was a fizzle. The idea of Jo. Holman being a candidate for Congress, is regarded as a rich joke. Messrs. Editors, look at the names of the men who seceded from the Democratic Convent and see who they are. There is Bill Baker, an inveterate office-seeker, who has been pam-

pered and fed with office by the Democrand for whom they have labored harder than for any other man in the county. He and after his last term expired, and at the in-coming of the present administration, his in-satiate appetite for office not being satisfied, and his cry being, "give me office! office!" he made application for the Marshal-ship of this State. Failing to get,it, he turned

or to his party. Next comes. Charley Test, who left the Whig party because they refused longer to give him office. He never had the spirit of -Abolition-Whiggery, and I am sure Deceate generally will be glad of it. His re

indicious use of Mercury, Imprudence in Life, or impurity of the Blood.

This valuable Medicine, which has become celebrated for the number of extraordinary cures effected through its agency, has induced the proprietors, at the argent request of their friends, to offer it to the public, which they do with the utmost confidence in its virtues and wonderful curative properties. The following certificates, selected from a large number are however, stronger testimony than the mere word of the proprietors; and are all from genilemen well known in their localities, and of the highest respectability, many of them residing in the city of Richmond Va.

F. BOYDEN, Esq., of the Exchange Hotel, Richmond, known every where, says he has seen the Medicine call ed Camtra's Spannar Mixtures administered in over a hundred cases, in nearly all the diseases for which it is recommended, with the most extraordinary medicine he has ever seen.

He says it is the most extraordinary everseen.

AGUR AND FEVER—Great Cure—I hereby certify that for three years I had Ague and Fever of the most violent description. I had several physicians, took large quantities of Quinine, Mercury, and I believe all the Tonics advertised, but all without any permanent relief. At last I fired Carters's Spansum Mixtrues, two bottles of which effectually cured me, and I am happy to say I have had neither Chilts or Fever since. I consider it the best Tonic in the world, and the only medicine that ever reached my case.

Beaver Dam, near Richmond, Va.

C. B. LUCK, Esq., now living in the city of Richmord, and for many years in the post-office, has such confidence in the astonishing efficacy of Carrar's Syansus Mixturs, thathe bought upwards of 50 bottles, which he has given away to the afflicted. Mr. Luck says he has never known it to fail when takes according to directions.

Dr. MINGE, a practicing physician, and formerly of the City Hotel in the city of Richmond, says he has witnessed in a number of instances, the effects of Carrar's Syansus Mixtures which were most truly surprising. He says in a case of Consumption, dependent on the Liver, the good effects were wonderful indeed.

SAMUEL M. DRINKER, of the firm of Drinker & Morris, Richmond, was cured of Liver Complaint of eight y, are standing, by the use of two bottles of Carter's Spanish Mixture.

GREAT CURE OF SCROFULA.—The editors of the Richmond Republican had a servant employed in their press room, cured of violent scrofula, combined with Rheumasiam, which entrelly disabled him from work.

Two bottles of Carter's Spanish Mixture made a perfect cure of him, and the editors, in a public notice, say they "cheerfully recommend it to all who are efflicted with any disease of the blood."

STILL ANOTHER CURE OF SCROFULA.—I had a very valuable boy cured of Scrofula by Carter's Spanish Mixture.
